HKPOP releases latest community health survey

Due to the outbreak of Wuhan pneumonia, the Hong Kong Public Opinion Program (HKPOP) under the Hong Kong Public Opinion Research Institute (HKPORI) launched the “Community Democracy Project: Community Health Module” (民主社區計劃：社區健康單元) or “Community Health Project” in short. Under this project, an online survey of POP Panel members has been conducted since January 29 to gauge people’s views on the epidemic and relevant government measures, using small communities such as housing estates as units of analysis. The latest results of the survey will be released this afternoon, including people’s views on the supply of protective masks, self-assessment on their chance of pneumonia infection, appraisal on the government’s handling of the disease and so on. There will also be an aggregate analysis of the opinion of residents from four constituencies (Wai King, Do Sin, Wan Po North and Wan Po South) of the Sai Kung District Council. The media is invited to send representatives to attend the press conference. Details are as follows:

Date: February 7, 2020 (Friday)
Time: 2:30pm
