2

	香港民研意見群組成員 HKPOP Panel
調查日期 Survey date	17/5 15:00 – 24/5 15:00
調查方法 Survey method	以電郵接觸群組成員，並於網上完成調查 Online survey
訪問對象 Target population	十二歲或以上的香港市民 Hong Kong residents aged 12+
總成功樣本 Total sample size	6,583
回應比率 Response rate	7.0%
抽樣誤差 Sampling error	95% 置信水平，百分比誤差 +/-1% Sampling error of percentages at +/-1% at 95% confidence level
加權方法 Weighting method	按照1) 政府統計處提供的全港人口年齡及性別分佈統計數字、各區議會人口數字； 2) 選舉事務處提供的區議會選舉結果；3) 常規調查中的特首評分分佈數字，以「反覆多重加權法」作出調整。 The figures are rim-weighted according to 1) gender-age distribution of Hong Kong population and by District Councils population figures from Census and Statistics Department; 2) Voting results of District Councils Election from Registration and Electoral Office; 3) rating distribution of Chief Executive from regular tracking surveys.

天水圍社區關注組成員王繼祖指出：「新一輪變種病毒始於天水圍社區，令不少天水圍的街坊都非常擔心，政府和市民都應留意。我建議政府暫停『回港易』和市民減少不必要的活動。如果市民必須外出，則應如實填報『安心出行』，讓政府準確掌握資訊，作出適當的政策安排。雖然大家都對取消限聚令有一定渴求，但可惜疫情太反覆，市民應該先好好保持個人衛生，減少不必要的活動，方為上策。」

Joel Wang, member from Tin Shui Wai Community Concern Group observed, “The new round of mutated virus started in the Tin Shui Wai community, making many residents in Tin Shui Wai worried. Both the government and the public should take note of this. I would suggest the government suspend the scheme of Return2hk and the public reduce unnecessary activities, and if they really have to go out, they should honestly report the information to the ‘Leave Home Safe’ system so that the government can have accurate information to formulate appropriate policies. Although we all want to lift the restriction on gathering, unfortunately the epidemic is so volatile that the best thing to do is to maintain personal hygiene and cut down unnecessary activities.”
