2

	香港民研意見群組成員 HKPOP Panel
調查日期 Survey date	16/7 15:00 – 21/7 15:00
調查方法 Survey method	以電郵接觸群組成員，並於網上完成調查 Online survey
訪問對象 Target population	十二歲或以上的香港市民 Hong Kong residents aged 12+
總成功樣本 Total sample size	5,636
回應比率 Response rate	6.1%
抽樣誤差 Sampling error	95% 置信水平，百分比誤差 +/-1% Sampling error of percentages at +/-1% at 95% confidence level
加權方法 Weighting method	按照1) 政府統計處提供的全港人口年齡及性別分佈統計數字、各區議會人口數字； 2) 選舉事務處提供的區議會選舉結果；3) 常規調查中的特首評分分佈數字，以 「反覆多重加權法」作出調整。 The figures are rim-weighted according to 1) gender-age distribution of Hong Kong population and by District Councils population figures from Census and Statistics Department; 2) Voting results of District Councils Election from Registration and Electoral Office; 3) rating distribution of Chief Executive from regular tracking surveys.

獨立評論人潘麒智指出：「疫苗推出至今，全港市民合共接種了超過638萬劑新冠疫苗，已接種最少一劑疫苗的市民約360萬人，佔全港12歲或以上人口的52.9%。根據現時接種疫苗的情況，相信很快就會達到群體免疫的目標。配合政府有效的邊境監控，限聚安排理應有放寬的可能性。我期望政府不再以種種理由壓制飲食業的生存空間，以行動證明政府並非無能。」

Independent commentator KC Poon observed, “Since the launch of the vaccination, over 6.38 million doses have been administered to Hong Kong people, and about 3.6 million people have received at least one dose of the vaccine, accounting for 52.9% of the population aged 12 or above. Based on the current situation, it is believed that the target of herd immunity will be achieved soon. Coupled with the government’s effective border control, restrictions on gathering could be relaxed. I hope the government would not use various reasons to suppress the survival of the catering industry, and take action to prove that it is not incompetent.”
