民生大聯盟發言人章彤輝博士指出，「本地新冠肺炎病例由零變一，雖然是一個間接輸入病例，但也揭示控制疾病傳播（尤其是呼吸性傳染病）的困難。一方面對要維持對新冠肺炎的謹慎，另一方面又要在公共衛生的角度反思，科學地評估和平衡風險。100%滅絕病毒，100%接種，100%安全……這些字眼其實是閉門造車，紙上談兵。」

Dr Tung-fai Cheung, Spokesman of Alliance of Revitalizing Economy and Livelihood, observed, “From 0 to 1, the appearance of a local COVID-19 case, although just an indirect imported case, revealed the difficulties to put the disease (especially a respiratory infectious disease) under control. On the one hand, we need to keep our caution to COVID-19. Furthermore, we need to assess and balance all risks scientifically from the angle of public health. 100% eradication, 100% vaccination, 100% safe... all sounds like empty talks behind closed doors.”
