民生大聯盟發言人章彤輝博士指出，「香港和新加坡政府停止雙邊『航空旅遊氣泡』計劃的討論，原因是『兩地目前在疫情防控方面所採取的策略存在差異』。雖然香港通關的首要目標為大陸，不可避免要採取與大陸類似的防疫策略，但是考慮到新加坡的地緣環境和社會情況與香港高度相似，我建議政府主動檢討及調整抗疫思維。」

Dr Tung-fai Cheung, Spokesman of Alliance of Revitalizing Economy and Livelihood, observed, “The governments of Hong Kong and Singapore decided not to pursue further discussions on the bilateral Air Travel Bubble (ATB) due to ‘differences in the anti-epidemic strategies currently adopted by the two places’. Although Mainland China is the primary target of Hong Kong border crossing resumption, so we may need to match with their anti-epidemic strategies, considering the geographical and social similarities between Hong Kong and Singapore, I think our government should proactively review and optimize our overall anti-epidemic philosophy.”
